LIST 2711

ROSES

1927-1928

BUDDED AND OWN ROOTS

NOVELTIES. This list embraces the most up-to-date offerings in the country. We are now able to supply budded stock of many European Novelties simultaneously with their introduction abroad.

ABBREVIATIONS. The classes, H. T., H. P., etc., are too well known to need explanation. N. R. S. means National Rose Society of England. A. R. A. followed by figures refers to volume and page of American Rose Annual for further details. This is issued by American Rose Society to which everyone interested in roses should belong.

QUALITY. Everything offered is field grown and California grown. Eastern Nurserymen who have visited California know that our Hybrid Teas and Pernetianas are absolutely unequalled. The vigor is such that budded stock is full grown at this date.

TIME OF SHIPMENT. Our budded roses are grown in Northern California. Growth is completed by June. They are ripened slowly during summer and can be dug and shipped beginning about November 1st. Own root roses are produced in Southern California. They grow all summer, are dug in December, and shipped about January 1st. Both kinds can be shipped throughout the winter as we have no freezing weather. They will not stay dormant much after February 15, and for good results shipments should be made by that date or else packed and put in cold storage for spring shipment.

QUANTITIES. All prices are "flat" regardless of quantity. Novelties listed at \$1.00 or higher may be ordered singly if desired. Varieties at 75c or less, not less than 5 of a kind. Own root roses should be ordered in multiples of 10.

PACKING. Charged for at cost of material.

TERMS. To buyers of known or established credit, 60 days net from date of shipment. Otherwise cash with order or 25% with order, balance C. O. D.

SHIPMENT. State explicitly whether you wish freight or express. In either case all shipments are carried at buyers risk. Delay or damage in transit is up to transportation companies. Express is recommended for all Eastern shipments.

All budded roses will be packed and shipped from Clarke Nursery Co., San Jose, Calif. Own root roses will be packed and shipped direct from nursery in Southern California.

WHOLESALE ONLY. This list is for those who are legitimately in the trade and for no one else. Orders from anyone not in the trade will positively not be accepted.

GRADES. Prices specified are for No. 1 grade. Second grade is not usually sold in advance but can be booked if desired at about one-third less on varieties listed at 75c or lower.

ROOTS. The majority are on Manetti. Some on Ragged Robin and Odorata.

CLIMBERS are grouped by themselves as a matter of convenience.

CLIMBERS

@ \$1.00

ALLAN CHANDLER—H. T. (Prince 1924)
Vivid scarlet. Semi-single in clusters of three or four. Blooms continuously. Delightfully fragrant. Won Cory Cup and Gold Medal N. R. S. A. R. A. 9-164.

AUGUSTE DELOBEL—Hyb. Wich. (Turbat 1924)

Flowers large, single, brilliant carmine with white eye; borne in clusters of 25 to 50. Very vigorous climber and very hardy. A. R. A. 10-186.

CLEMATIS—Hyb. Wich. (Turbat 1924)

Flowers small, single, dark red with white eye, borne in clusters of 40 to 50. Very vigorous. A. R. A. 10-187.

CLIMBING MME. BUTTERFLY—H. T. (Smith 1926)

Climbing sport of Mme. Butterfly with even better flowers. A. R. A. 11-181.

CLIMBING SUNSTAR—H. T. (Alex. Dickson & Sons 1925)

A climbing sport of the wonderfully colored Sunstar. Should do well on the Pacific Coast and become one of our most brilliantly colored climbers. As with several other climbing sports the flowers are superior to the bush variety. A. R. A. 11-181.

ROSEMARY—H. T. (Cant 1925)

Carmine pink shaded old gold. Long pointed buds, medium sized flowers which come several together on a long stem. Strong musk fragrance. Continuous bloomer. Clay Cup R. H. S. A. R. A. 10-186.

@ 75c

BLACK BOY—H. T. (A. Clark 1923)

Dark blackish crimson shaded dark maroon. A vigorous climber. A. R. A. 12-129.

CLIMBING IRISH FIREFLAME—H. T.

A climbing sport of one of our great favorites. Should quickly attain great popularity on the Pacific Coast.

CLIMBING MME. EDOUARD HERRIOT—Pern. (Ketten 1922)

A climbing sport of this great favorite. Flowers same as in the bush variety. It is easy to predict the greatest popularity for this extremely valuable novelty.

@ 50c

CLI. LADY HILLINGDON—T. (Hicks 1917)
Identical with bush form except in growth.

CLI. LOS ANGELES—H. T.

Same as the bush variety except in habit. Climbing habit seems very well fixed.

CLI. LOUISE CATHERINE BRESLAU—Pern

The climbing habit has been well fixed by careful bud selection so that this justly esteemed variety can now be had in a truly climbing type at a moderate price.

EMILY GRAY—Hyb. Wich. (Williams 1918)

Deep golden buff. Flowers large, semi-double. Possibly the best Yellow Wichuraiana hybrid climber.

MARY WALLACE—Hyb. Wich.

Has large very bright pink flowers illuminated with shining gold. Very vigorous. Splendid foliage.

@ 40c

BELLE OF PORTUGAL—Hyb. Gig.

Soft creamy pink with a suggestion of yellow. Buds very long. Vigorous grower.

CLI. CHATEAU DE CLOS VOUGEOT—H. T.

A vigorous climbing sport of this esteemed variety. Crimson scarlet. Same in all respects except growth, which is very strong.

CLI. OPHELIA—H. T.

A climbing sport of one of our most popular varieties. Identical except in habit.

CLI. YELLOW CECILE BRUNNER—Cli. Poly.

About the same as that great favorite Cli.

Cecile Brunner but with flower of a pleasing yellow shade. Extremely vigorous.

MARECHAL NIEL—Noisette.

Bright rich golden yellow. Large and intensely fragrant.

STAR OF PERSIA—Hyb. Lutea.

Flowers intense bright yellow about three inches broad; semi-double. Absolutely non-fading; even the fallen petals are still yellow. Probably the hardest really yellow climber known. Blooms profusely in Spring.

@ 35c

CLI. GEN. MACARTHUR—H. T.
Fiery red.

CLI. H. V. MACHIN—H. T.

Scarlet crimson. Large flowers.

CLI. HOOSIER BEAUTY—H. T.

Identical with bush variety except in habit.

Yellow.

CLI. SUNBURST—H. T.

Yellow. Flowers same as bush variety.

CLI. WHITE COCHET—T.
White; outer petals pink.

DR. HUEY—

Intensely dark crimson scarlet. Flower large and semi-double. Very profuse bloomer. Excellent. Colored cut A. R. A. 11-122.

LEMON PILLAR—Hyb. Nois.

Pale lemon buds opening lemon white. Flowers large. Good climber. Very fine.

PAUL'S SCARLET CLIMBER—Hyb. Wich.

Brilliant scarlet. This variety is almost perfect except that it is normally not a strong climber. This fault is remedied by budding which increases its vigor very greatly.

CLI. AMERICAN BEAUTY—

Light red. Not a sport of American Beauty but colored like it. A marvellously free bloomer and splendid for cutting.

CLI. BELLE SIEBRECHT—H. T.

One of the best pink climbers.

CLI. CECILE BRUNNER—Cli. Poly.

Budded for increased vigor.

CLI. CHATENAY—H. T.

True climbing sport of Mme. Abel Chatenay.

CLI. KAISERIN—H. T.
